Professional Summary

Aspiring Software Engineer with hands-on experience developing responsive and full-stack web applications using React, JavaScript, TypeScript, Node.js, and modern web technologies. Skilled in understanding application requirements, designing reusable user interfaces, integrating REST APIs and databases, and deploying applications using platforms such as Vercel. Experienced in building AI-powered applications by integrating Gemini AI and exploring modern AI development tools to enhance functionality and development efficiency. Passionate about learning emerging technologies, writing maintainable code, and continuously improving software development skills.

Technical Skills

Languages: Java, Python, C, C#, JavaScript, HTML5, CSS3

Frontend: React, Vite, jQuery

Backend & APIs: Node.js, Express, REST API

Databases & BaaS: MongoDB, Supabase, MySQL

Tools & Platforms: Git, GitHub, VS Code, Figma, Vercel, WordPress, Godot

Projects

SEO Rank Tracker

React, TypeScript, Node.js, Express, MongoDB, Gemini AI

Built a full-stack SEO platform for automated website audits and Google keyword rank tracking. Integrated Playwright and Browserbase for web scraping, Gemini AI for SEO scoring and actionable recommendations, JWT authentication for secure user access, MongoDB for persistent analysis and rank history, and Node-Cron for automated daily rank updates.

AI Fitness Tracker

React, Tailwind CSS, Firebase, Gemini AI

Built a responsive AI-powered fitness tracking application for monitoring workouts and daily fitness metrics. Integrated Firebase for data management and Gemini AI for intelligent fitness insights and personalized recommendations. Deployed using Vercel.

MoodFlix

React, Vite, Tailwind CSS, OMDb API, Appwrite

Built a responsive movie search platform with React and the OMDb API, featuring debounced search, reusable components, asynchronous API handling, and loading/error states. Integrated Appwrite to track search popularity and generate dynamic trending movies, with the application deployed on Vercel.

React Chatbot

React, JavaScript, Node.js, Express.js

Built an interactive rule-based chatbot with React and Express.js featuring dynamic message rendering, controlled input handling, automatic scrolling, keyboard interaction, and utility-based responses for date, time, dice rolls, and coin tosses. Configured the application for Vercel deployment.

Education

Bachelor's in Computer Science
